THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U. S. CODE AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNCLASSIFIED INFORMATION

SOURCE

1. The following information was excerpted from an official tabulation of the quantities of steel required for the 1954 road bridge construction program:

Num- Location of Bridge or
ber Waterway Crossed Type of Bridge Steel Requirements (in tons)

a. Bridges to Be Built in 1954:

1	Peene River near Demmin Meyenkrebs Bridge	steel	91.6
2	Oder-Havel Canal near Havelhausen-Borgsdorf	steel	344
3	Hans Schleuse at Rathenow Branch of the Anker River	steel reinforced concrete	303
4	Lehnitzer Schleuse	steel	170
5	Muehlenfließ near Ruedersdorf, second lane	steel	133
6	Kalkgraben, near Ruedersdorf, second lane	steel	155
7	Oder-Havel Canal, near Finowfurt	steel	25
8	Autobahn bridge near Frankfurt/Oder	steel and re- inforced concrete	1,044
9	Spree Canal near Muellrose	steel	14
10	Spree River near Beeskow	concrete arch	4.5
11	Oder River near Hohenwutzen	steel	1,192

25X1A

1	2	3	4
12	Oder River at Sennewitz	reinforced concrete	326
13	Spree River at Berkenbrueck	steel	35
14	Spree River at Gottbus	reinforced concrete	15
15	Railroad Lauchhammer	reinforced concrete	35
16	Elbe River at Voekerode	steel	1,197
17	Elbe River at Hohenwarthe	steel	4,500
18	Klein Striegis River near Schlegel, first lane	stone arch	36
19	Valley of Saubach River near Willsdruff, first lane	reinforced concrete	195
20	Saale River near Schkopau	steel	included in the supplement to the 1953 plan
21	Elbe River at Miesitz, first stage	steel	500
22	Klein Striegis River near Schlegel, second lane	stone arch	11
23	Valley of Saubach River near Willsdruff, second lane	reinforced concrete	590
	Reserve and minor projects		400
	Total:		11,378.1

1. 1953 Steel Allocations not yet Delivered:

1	Huggelspre River near Furig	steel	105
2	Hahne River near Niederlehme	steel	682
3	Hakrow-Paretz Canal near Uts	steel	421
4	Oder-Spree Canal near Wernsdorf	steel	366.1
5	Oder-Havel Canal near Finowfurt, second lane	steel	625
6	Havel-Canal near Liebenwalde	steel	40
7	Category I road near Muench	steel	10
8	Englitz River near Schwedt/Oder	steel	132
9	Elbe River lock near Rothensee	steel	52
10	Schwane Bridge	steel	7
11	Bridge near Schkopau	steel	349
12	Oder-Havel Canal "Kaiserweg" bridge	steel	150

25X1X Total:

25X1A 2. [] the following information from minutes of a conference held 25X1

a. [] the Main Administration for the Building Industry on []

b. Due to the fact that the rolling mill in Eisenburg stopped operating and with regard to the preferential treatment given to metallurgical plants and plants of the power producing industry, steel allocations for the road bridge construction program were drastically curtailed. The new situation seriously affected the scheduled completion of reinforced concrete bridges. Twenty such bridges or individual lanes of steel bridges could not be completed because of a shortage of round steel. Since steel cannot be delivered, it is to be feared that construction work on the 20 bridges will have to be suspended at the end of the second or beginning of the third quarter of 1953.

c. The coordinating agency of the State Planning Commission has asked the Main Administration for the building industry to give its comment on a draft for a resolution to be taken by the Council of Ministers regarding the inadequate deliveries of steel for the road bridge construction program. In its comment, the Main Administration for the Building Industry voiced the opinion that it was not in a position to furnish the steel required for bridge construction programs without withdrawing it from other projects.

25X1A 3. [] the following information on the organization of maintenance work on autobahnen in East Germany:

a. All maintenance work on autobahnen is centrally controlled by the Staatliche Strassenunterhaltungsbetrieb (Autobahnen) on Grosse Steinstrasse in Halle/Saale.

b. The following autobahn maintenance statics (Hauptbetriebsstelle) and assigned maintenance posts (Autobahnmeistereien) (AM) are in existence:

Note: VVK stands for Vereinigung volkseigener Kraftverkehrs- und Reparaturbetriebe (association of nationalized trucking companies and motor vehicle repair installations); SSB for Staatlicher Strassenunterhaltungsbetrieb (state road maintenance agency); AB for Autobahn Inspektion (autobahn inspectorate); VVB for Vereinigung volkseigener Betriebe (association of nationalized enterprises).

25X1A ☐ Comment. For original tabulation, see Annex. It contains additional information on the quantities of round, steel, rod steel, plates, rivets and steel castings required.

25X1A ☐ Comment. The Staatlicher Strassenunterhaltungsbetrieb (Autobahnen) is directly subordinated to the State Secretariat for Motor Traffic and Roads. The information contained in this paragraph indicates that a total of 1,335 km of autobahnen are available in East Germany as against 3,600 km in West Germany.

25X1A ☐ Comment. The tabulation of the autobahn maintenance stations and posts is complete.
